

Becatech

Interconnective Power

Coroflex shielded (Auto shielded)

Cable Structure :

Conductor: stranded bare copper.

Insulation: silicone rubber.

Screen: tinned copper braiding.

Shield foil: ALU-PET foil, metal side in contact to screen overlap min. 20%.

Outer sheath: silicone rubber.

Technical Specification :

Nominal voltage: 0.6/1 kV.

Rated temperature: -40°C to 180°C.

Rated bending radius static: 3 x ϕ .

Rated bending radius dynamic: 6 x ϕ .

Application :

Suitable for automotive electric powertrain.

Core x mm ²	Insulation Thickness mm	Inner Sheath Diameter mm	Shielding Diameter mm	Overall Diameter mm	Cable Weight (g/m)
2x4	0.28	8.3	9.0	11.3	220
