

Becatech

Interconnective Power

PVC mounting control wire (H05V2-U)

Cable Structure :

Conductor: bare copper according to EN 13602 (class 1).
Insulation: PVC high-temperature.

Technical Specification :

Rated temperature moved: -5°C to 90°C.
Rated temperature static: -30°C to 90°C.
Rated bending radius: 6 x ϕ .
Flame retardant according to IEC 60332-1-2.
Heat resistant and self-extinguishing.

Application :

Suitable for internal wiring of appliances and panels.

Core x mm ²	Overall Diameter mm	Cu Index	Weight (kg/km)
1x0.5	2.1	4.8	8.5
1x0.75	2.3	7.2	11.0
1x1	2.45	9.6	14.0
1x1.5	2.9	14.4	20.5
1x2.5	3.55	24.0	32.0
