

Becatech

Interconnective Power

**Flexible cable for internal wiring
(UL-LIYY)**

Cable Structure :

Conductor: flexible electrolytic bare copper.
Insulation: special PVC with high heat resistance.
Yarn filler.
Outer sheath: special PVC with high heat resistance.

Technical Specification :

Nominal voltage: 300V.
Rated temperature: -20°C to 105°C.
Rated bending radius: 6 x ϕ .
Flame resistant according to VW-1 /FT1.

Application :

Intended for internal wiring of electronic equipment and appliances.
Suitable for indoor use and for fixed installation.

Size Conductor	Overall Diameter mm	Thickness Of Sheath
2xAWG19 + 4xAWG24	6.5 +/- 0.2	0.76 / 30
